STATOR TESTING PANEL

To reduce human errors & increase productivity Aarohi developed a fully automatic stator test panel with advanced control of programmable logic control (PLC). With the help of cutting-edge technology, this panel helps you to enhance productivity & work efficiency.

Specification

Parameter	Description
Enclosure (Panel) type	Mounting on movable trolley/ wall mount
Suitable Motor type	1, 2 & 3 phase motors
Range	HVT: 5 KV/ 250 mA / For IR: 1000 Mohms/ 500 Vdc
Cycle time	Multiple option provided - Standard- 120 sec. (As per IS)
Output connections	Piano terminal/ Crocodile clamp.
Test Sequence	7 Different programs provided
Dimension	800mm X 600mm X 600mm (Without trolley)
Enclosure/ Panel colour	Blue & orange Siemens gray
Test covered	Resistance test/ HV test/ IR test (Before & after HV)

Features

- Winding resistance test (RY/YB/BR)
- IR test before HV test.
- HV test
- IR test after HV test.
- Provision of 7 different test selection programs.
- Test timing programmable.
- Test abort if HV test fails.
- Auto discharge of winding after & before every test provided to prevent instrument failure.
- Esthetic design.
- User-friendly operation.
- Installation option: Wall mount/Movable Stand.
